

Xaerus Performance Fluids Intl., Inc. earns ISO 9001:2015 Certification by AVU Registrations

Midland, MI – October 10, 2016 – Xaerus Performance Fluids Intl., Inc. (Xaerus) announced that it has successfully completed a certification audit by AVU Registrations to the newly revised ISO 9001:2015 quality management systems standard. Xaerus completed its certification audit on September 21st.

ISO 9001:2015 is the latest revision of the world's most widely applied international standard on quality management systems. ISO 9001 certification will allow Xaerus to demonstrate to its customers the dedication and continued ability to manufacture consistent high quality product. This will also allow Xaerus to continue to meet and improve customer satisfaction. The standard also acts as a tool to streamline the organization's processes and increase operational efficiencies.

To maintain certification, Xaerus will undergo the required surveillance audits annually and a re-certification audit every three years.
